We, the Honourable Judge Napoléon Charbonneau and the Honourable Judge A. A. #### TWO MOUNTAINS CONTROVERTED ELECTION.

*In the Supreme Court of Canada.*

TUESDAY the twenty-ninth day of October, A.D. 1912.

PRESENT:

The Right Honourable Sir Charles Fitzpatrick, G.C.M.G., Chief Justice.

The Honourable Mr. Justice Davies,

“ Mr. Justice Idington,

“ Mr. Justice Duff,

“ Mr. Justice Anglin,

“ Mr. Justice Brodeur.

#### “THE DOMINION CONTROVERTED ELECTIONS ACT.”

Election of a Member for the House of Commons of Canada for the Electoral District of Two Mountains, in the Judicial District of Terrebonne, held in the month of September, 1911.

SAMUEL FAUTEUX,

*(Petitioner) Appellant;*

and

JOSEPH ARTHUR CAXLITE ETHIER AND JOSEPH HENRI LANGLOIS,

*(Defendants) Respondents.*

The appeal of the above named appellant from the judgment of the Honourable Judges Robidoux and Laurendeau delivered upon the trial of the Election Petition in the above matter on the twenty-fourth day of June in the year of Our Lord one thousand nine hundred and twelve, which was as follows:—

“The Court, after having heard the parties through their attorneys, on the merits of the present case, having examined the proceedings and deliberated:—

"The Petitioner asks that the election of the defendant Ethier, who was elected a Member of the House of Commons of Canada for the Electoral District of Two Mountains, at the election of the month of September, 1911, be annulled, and that the return made by the returning officer, Joseph Henri Langlois, attesting that the defendant Ethier had been elected, be declared irregular, illegal and null, and that it be further declared that the defendant Ethier has no right to sit in the said House of Commons of Canada.

"The petitioner alleges that on the 14th September, 1911, the defendant Ethier as well as Guillaume André Fauteux, advocate, of the village of St. Eustache, in the district of Terrebonne, were both nominated as candidates by the presentation in regular form of nomination papers made by each of them, according to law; that the returning officer, Langlois, had accepted the nomination paper for the nomination of the said Guillaume André Fauteux as well as the deposit of the sum of \$200, for which deposit he gave to Georges Nicolas Fauteux, notary of the village of St. Eustache, a receipt in the presence of the said Guillaume André Fauteux, and for the return, which receipt reads as follows:—

"Ste. Scholastique, 14th September, 1911, Received from Georges Nicolas Fauteux the sum of \$200 as deposit for Mr. Guillaume André Fauteux, candidate in the present election, (Signed) J. H. Langlois, Returning Officer; that notwithstanding the nomination legally made and duly accepted by the returning officer Langlois, the latter, in that capacity, had, on the 15th September, 1911, irregularly and illegally declared the defendant Ethier elected, made a return in consequence to the Clerk of the Crown in Chancery, and illegally refused to allow voting.

"The defendants plead that only one nomination paper was regularly presented, that of the defendant Ethier; that the latter opposed the nomination of Guillaume André Fauteux because no regular nomination paper was presented by the latter and that it was only after the objections of the defendant that the receipt for the deposit made by Mr. Guillaume André Fauteux had been signed by the defendant Langlois, which receipt, moreover, does not constitute a sufficient proof of the validity of the nomination paper; that, in fact, one candidate only had been nominated, the defendant Ethier, and the returning officer Langlois had no other course to follow than to declare, as he did, the defendant Ethier elected.

"The petitioner makes a general answer to that plea:

"Considering that the nomination paper placed in the hands of the returning officer, by Guillaume André Fauteux, cannot be recognized as valid in law, because the said Guillaume André Fauteux is not identified in the said nomination paper and because he is not nominated as candidate by twenty-five electors;

"Considering that the receipt given by the returning officer for the deposit of \$200 made by the said Guillaume André Fauteux, is not proof of the sufficiency and the validity of the nomination paper, any more than of the acceptance of such paper by the returning officer;

"Considering that the returning officer in not deciding as to the validity of the nomination paper of Guillaume André Fauteux until the following day, the 15th, had not violated the law;

"Considering that the candidate Joseph Arthur Calixte Ethier had been regularly elected by the returning officer; dismisses the Petition of the Petitioner with costs," having come on to be heard before this Court on the first day of October in the year of Our Lord one thousand nine hundred and twelve in the presence of counsel as well for the appellant as the respondents, whereupon and upon hearing what was alleged by counsel aforesaid this Court was pleased to direct that the said appeal should stand over for judgment and the same coming on this day for judgment this Court did Order and Adjudge that the said judgment of the said Honourable

Judges Robideaux and Laurendeau should be and the same was affirmed and that the said appeal should be and the same was dismissed with costs to be paid by the said appellant to the said respondents.

“CERTIFIED.

“E. R. CAMERON,

“Registrar.”

I, Edward Robert Cameron, Registrar of the Supreme Court of Canada, hereby respectfully certify to the Honourable the Speaker of the House of Commons, pursuant to the statute in that behalf, that hereinbefore set forth is the judgment and decision of the Supreme Court of Canada in the matter of the Dominion Controverted Elections Act: Election of a Member for the House of Commons of Canada for the Electoral District of Two Mountains, in the Judicial District of Terrebonne, held in the month of September, 1911.

SAMUEL FAUTEUX,

(Petitioner) Appellant;

and

JOSEPH ARTHUR CALIXTE ETHIER AND JOSEPH HENRI LANGLOIS,

(Defendants) Respondents.

I further respectfully certify that the decision of the said learned trial judges has been left unaffected by the decision of the Supreme Court of Canada.

And I further certify that appended hereto is a copy of the reasons for judgment delivered by the Judges of this Court who affirmed the trial judgment as well as those of the Honourable Justices Idington and Duff who dissented therefrom.

E. R. CAMERON,

Registrar.

Dated at Ottawa, this 6th day of November, A.D. 1912.

And the said Judgment was ordered to be entered on the Journals of this House.

He accordingly presented the said Bill to the House, and the same was received and read the first time.

Mr. Speaker reported, That when the House did attend His Royal Highness the Governor General this day in the Senate Chamber, His Royal Highness was pleased to make a speech to both Houses of Parliament, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which he read to the House as followeth:—

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

I have during the past summer spent several months in visiting the principal cities and towns of Canada from coast to coast, and have endeavoured to make myself as far as possible acquainted with the conditions prevailing.

It has been a source of the deepest satisfaction to me to see the almost universal prosperity which reigns throughout the Dominion, and to witness the energy and enterprise which are shown in developing the rich resources of the land.

It is most gratifying to observe that the trade of the Dominion is increasing rapidly and steadily, the aggregate trade for the last fiscal year being the largest on record. During the present year the same steady increase has been noted, and it is anticipated that the total volume of our trade for the present fiscal year will greatly surpass that of any previous year in our history.

The revenues of the Dominion continue to expand, and in every branch of business and industry there is a remarkable activity which gives assurance of continued progress and prosperity.

A copious and welcome stream of immigration has poured into our country during the past summer. The volume of immigration during the present year is greater than during any corresponding period of our history, and in larger measure than usual it has been drawn from the British Islands.

The labours of the husbandman have been blessed with an ample return; and, although in some districts the weather has been unpropitious for the harvest, it is expected that the total value of our field crops will be greater than in any previous year.

Papers will be laid before you which embody trade arrangements that have been consummated between the Dominion and certain of His Majesty's possessions in the West Indies. It is hoped that these arrangements will prove of great advantage not only to those possessions, but to Canada as well. A Bill will be introduced for the purpose of carrying this agreement into effect.

During the past summer four Members of my Government conferred in London with His Majesty's Government on the question of Naval Defence. Important discussions took place and conditions have been disclosed which in the opinion of my advisers render it imperative that the effective naval forces of the Empire should be strengthened without delay. My advisers are convinced that it is the duty of Canada at this juncture to afford reasonable and necessary aid for that purpose. A Bill will be introduced accordingly.

A contract for the construction of the Hudson Bay Railway from LePas to Port Nelson has been awarded and the work is being pushed forward with all possible speed.

It is abundantly evident that the highways of Canada constitute an important part of an efficient scheme of transportation. The necessity for improving our existing facilities in this regard is manifest and a Bill will be introduced for the purpose of enabling the Dominion to co-operate with the Provinces in the accomplishment of this most desirable purpose.

It is satisfactory to know that the proposal of my Government to co-operate with the governments of the various provinces in promoting the agricultural industry has met with hearty approval. The appropriations which were made last session in connection therewith have proved to be of marked benefit to the country. After a careful study of the whole question my advisers are convinced that co-operation with the Provinces on well defined terms and conditions will achieve the best results along the lines of agricultural instruction. Any such policy to be effective must be continuous. Accordingly, a Bill will be introduced by which a substantial amount of money will be set apart from the Consolidated Revenue Fund for the purpose of assisting the Provinces for a term of years in this highly important national work.

My Government has succeeded in securing certain reductions in cable rates and will continue its efforts to obtain still further reductions.

Under existing legislation the charters of the Banks will expire on the 1st day of July next. A Bill revising and extending these charters will be submitted for your consideration and approval.

Several other Bills will be submitted, including measures providing for increased representation of the Provinces of Alberta, Saskatchewan and Manitoba in the Senate.

*Gentlemen of the House of Commons:*

The accounts for the last fiscal year will be laid before you. It will be satisfactory to you to learn that the revenue has been ample to cover both ordinary and capital expenditure.

The estimates for the next fiscal year will be submitted at an early date. They have been prepared with due regard on the one hand for economy, and on the other hand for the necessary development of the resources of the Dominion.

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

I invite your earnest consideration of the subjects to which I have alluded and I invoke the blessings of Divine Providence upon your deliberations.

On motion of Mr. Rogers, seconded by Mr. Cochrane.

Resolved, That the Speech of His Royal Highness the Governor General, to both Houses of Parliament of the Dominion of Canada, be taken into consideration on Monday next.

On motion of Mr. Rogers, seconded by Mr. Cochrane.

Resolved, That the Order for the consideration of the motion for an Address to His Royal Highness the Governor General, in reply to his Speech at the opening of the Session, have precedence over all other business, except introduction of Bills, until disposed of.

On motion of Mr. Rogers, seconded by Mr. Cochrane.

Resolved, That a Special Committee be appointed to prepare and report, with all convenient speed, Lists of Members to compose the Select Standing Committees of this House under Rule 10, said Committee to be composed of Mr. Borden, Sir Wilfrid Laurier, and Messieurs Reid (Grenville), Pelletier, Pugsley, Stanfield and Pardee, and that that portion of Rule 10, limiting the number of Members of the said Committee, be suspended in relation thereto.

Mr. Speaker laid before the House,—The Report of the Joint Librarians of Parliament. (*Sessional Papers, No. 33.*)

(*For the Appendix to this Report, See Sessional Papers, No. 33.*)

On motion of Mr. Rogers, seconded by Mr. Cochrane.

Resolved, That when this House adjourns this day it do stand adjourned until Monday next at Three o'Clock, P.M.

And then The House, having continued to sit till half-past Three of the Clock, P.M., adjourned till Monday next at Three o'Clock, P.M.

Mr. Borden moved, seconded by Mr. Foster (Toronto), That Mr. Speaker do now leave the Chair for the House to resolve itself into a Committee of the Whole to consider a certain proposed resolution to authorize measures for increasing the effective Naval Forces of the Empire.

Mr. Speaker, I would like to say that, after looking over the Bill in relation to this matter carefully, my judgment is that, according to our procedure, it should have

been initiated by a resolution considered in Committee of the Whole. But, as the Bill, with the consent and upon the instructions of the House, was formally introduced and read the first time, and will stand until this resolution is considered, and which, I presume, will be referred to the Committee of the Whole House to which the Bill will be referred, I imagine that the present action on this resolution is the only proper one that can be taken, and that it will correct the procedure when we reach the stage of the second reading of the Bill. But, I would like to say, in connection with this, that at least I hope it will not be regarded as a precedent for avoiding the introduction of money measures by resolution, as provided for under our procedure and practice.

And the question being put on the motion, it was resolved in the Affirmative.

The House accordingly resolved itself into a Committee of the Whole on the said Resolution.

*(In the Committee.)*

Resolved, That it is expedient in connection with the Bill now before this House intituled An Act to authorize measures for increasing the effective Naval Forces of the Empire, to provide:—

(a) That from and out of the Consolidated Revenue Fund of Canada there may be paid and applied a sum not exceeding thirty-five million dollars for the purpose of immediately increasing the effective Naval Forces of the Empire:—

(b) That the said sum shall be used and applied under the direction of the Governor in Council in the construction and equipment of battleships or armoured cruisers of the most modern and powerful type;

(c) That the said ships when constructed and equipped shall be placed by the Governor in Council at the disposal of His Majesty for the common defence of the Empire; and

(d) That the said sum shall be paid, used and applied, and the said ships shall be constructed and placed at the disposal of His Majesty subject to such terms, conditions and arrangements as may be agreed upon between the Governor in Council and His Majesty's Government.

And the question being put; It was resolved in the Affirmative.

The said Resolution was accordingly read the first time.

Mr. Borden moved, seconded by Mr. Foster (Toronto), That the said Resolution be now read a second time and concurred in.

Sir Wilfrid Laurier moved in amendment thereto, seconded by Mr. Pugsley, That all the words after the word "That" be struck out and the following substituted therefor:

---

"This House declines to concur in the said resolution and orders that the same be referred back to the Committee with instructions to amend the same in the following particulars, namely, to strike out all the words after clause (a) and substitute therefor the following:

"The memorandum prepared by the Board of Admiralty on the general naval situation of the Empire and communicated to this House by the Right Honourable the Prime Minister on 5th December, shows that several of the most important of the foreign powers have adopted a definite policy of rapidly increasing their naval strength.

"That this condition has compelled the United Kingdom to concentrate its naval forces in home waters involving the withdrawal of ships from the outlying portions of the Empire.

"That such withdrawal renders it necessary that Canada without further delay should enter actively upon a permanent policy of naval defence.

"That any measure of Canadian aid to Imperial naval defence which does not embody a permanent policy of participation by ships owned, manned and maintained by Canada and contemplating construction as soon as possible in Canada, is not an adequate or satisfactory expression of the aspirations of the Canadian people in regard to naval defence, and is not an assumption by Canada of her fair share in the maintenance of the naval strength of the Empire.

"This House regrets to learn the intention of the Government to indefinitely postpone the carrying out by Canada of a permanent naval policy.

"It is the opinion of this House that measures should be taken at the present session to give effect actively and speedily to the permanent naval policy embodied in the Naval Service Act of 1910 passed pursuant to the resolution unanimously approved by this House in March, 1909.

"This House is further of the opinion that to increase the power and mobility of the Imperial Navy by the addition by Canada under the above Act of two fleet units, to be stationed on the Atlantic and Pacific coasts of Canada, respectively, rather than by a contribution of money or ships, is the policy best calculated to afford relief to the United Kingdom in respect to the burthen of Imperial naval defence and, in the words of the Admiralty memorandum, to 'restore greater freedom to the movements of the British squadrons in every sea and directly promote the security of the Dominion;' and that the Government of Canada should take such steps as shall lead to the accomplishment of this purpose as speedily as possible."

And a Debate arising thereupon, the said Debate was, on motion of Mr. Pelletier, seconded by Mr. White (Leeds), adjourned.

And then The House, having continued to sit till Eleven of the Clock, P.M., 'adjourned' till To-morrow.

That all the words after the word "That" be struck out and the following substituted therefor:

This House declines to concur in the said resolution and orders that the same be referred back to the Committee with instructions to amend the same in the following particulars, namely, to strike out all the words after clause (a) and substitute therefor the following:

"The memorandum prepared by the Board of Admiralty on the general naval situation of the Empire and communicated to this House by the Right Honourable the Prime Minister on December 5th shows that several of the most important of the foreign powers have adopted a definite policy of rapidly increasing their naval strength.

"That this condition has compelled the United Kingdom to concentrate its naval forces in home waters involving the withdrawal of ships from the outlying portions of the Empire.

"That such withdrawal renders it necessary that Canada without further delay should enter actively upon a permanent policy of naval defence.

"That any measure of Canadian aid to Imperial naval defence which does not embody a permanent policy of participation by ships owned, manned and maintained by Canada and contemplating construction as soon as possible in Canada, is not an adequate or satisfactory expression of the aspirations of the Canadian people in regard to naval defence, and is not an assumption by Canada of her fair share in the maintenance of the naval strength of the Empire.

"This House regrets to learn the intention of the Government to indefinitely postpone the carrying out by Canada of a permanent naval policy.

"It is the opinion of this House that measures should be taken at the present session to give effect actively and speedily to the permanent naval policy embodied in the Naval Service Act of 1910 passed pursuant to the resolution unanimously approved by this House in March, 1909.

"This House is further of the opinion that to increase the power and mobility of the Imperial Navy by the addition by Canada under the above Act of two fleet units, to be stationed on the Atlantic and Pacific coasts of Canada, respectively, rather than by a contribution of money or ships, is the policy best calculated to afford relief to the United Kingdom in respect to the burthen of Imperial naval defence, and, in the words of the Admiralty memorandum, to 'restore greater freedom to the movements of the British squadrons in every sea and directly promote the security of the Dominion'; and that the Government of Canada should take such steps as shall lead to the accomplishment of this purpose as speedily as possible."

And the proposed motion of Mr. Verville, in amendment to the proposed amendment, That the following words be added at the end thereof:—"and the consent of Parliament should not be given to this Resolution until it has been submitted to and received the approval of the electors."

And the question being put on the amendment to the amendment; the House divided; and the names being called for, they were taken down, as follow:—

So it passed in the Negative.

And the question being again proposed on the main motion; Mr. Mondou moved in amendment thereto, seconded by Mr. Lamarche,

That all the words after the word "That" be struck out and the following substituted therefor:—"this House, while prepared to adopt effective measures for the protection of the territory of Canada, declines to concur in the said resolution, because it contains provisions tending to impose upon Canada, which has no voice in Imperial affairs, a share in the external responsibility and the naval defence of the Empire outside of Canadian territory, the only portion of the Empire over which the Canadian people may exercise any political or constitutional authority."

And a Debate arising thereupon;

And the House having continued to sit till after Twelve of the Clock on Friday morning,

*Friday, 14th February, 1913.*

And the question being proposed on the amendment,

And objection being taken to the amendment;

Mr. Speaker stated:—I am rather inclined to the opinion that this resolution, as it was drawn, which says, "leave out all the words after 'that' and substitute those instead," by the words thereby substituted affirms a principle which is not the principle I take it of the resolution; but for another reason I am inclined to the opinion that the amendment is out of order, and it is this: The Honourable Member in moving it, drew attention to the fact that it was substantially the same as a resolution that he had moved on the Address in reply to the Speech from the Throne. Bourinot, in his Third Edition, says: "that the renewal of a question during a session, when a motion has been stated by the Speaker of the House and proposed as a question for determination, it is then in the possession of the House to be decided or otherwise disposed of according to the established forms of procedure." Then it goes on to say: "It is however a usual form of procedure that no question or motion can regularly be offered if it is substantially the same as one on which the judgment of the House has already been expressed during the current session."

The Honourable Member said himself that it was substantially the same motion as the one which he moved on the Address in reply to the Speech from the Throne. I took occasion to look that up, and I frankly agree with him that it substantially expresses the same principle. I take up the English Manual of Procedure and find that their rule is much the same: Rule 124 says: "A motion must not raise a question substantially identical with one on which the House has given a decision in the same session."

For that reason I must rule that this amendment is out of order.

And the question being again proposed on the main motion:

Mr. Guilbault moved in amendment thereto, seconded by Mr. Lamarche, That all the words after the word "That" be struck out and the following substituted therefor:

"This House does not now concur in the present resolution, but that it be referred to a Committee of the Whole House, with instructions to add to it the following:—

"1. Stipulation to the effect of abrogating and recalling, for all purposes, a Bill sanctioned by the Governor General on the 10th May, 1910, being 9-10 Edward VII, and intituled: 'An Act respecting the Naval Service of Canada.'

"2. Stipulation to the effect that the present resolution shall not have force and effect, and shall not be binding before it has been approved by a majority of the people after consultation by way of a plebiscite."

And objection being taken:

Mr. Speaker stated: I notice that the first part of this amendment recommends that the resolution be referred back to the Committee, with instructions to repeal a law which is now on the statute book, which, of course, could not be done by the House in that way. With regard to the second part, it is substantially the same as the amendment moved by the Honourable Member for Maisonneuve, and I am obliged to rule that it is out of order.

And the question being put on the main motion; the House divided: and the names being called for, they were taken down, as follow:—

And a Debate arising thereupon;

And The House having continued to sit till after Twelve of the Clock on Tuesday morning:

*Tuesday 18th February, 1913.*

And the question being proposed on the said motion;

Mr. Cochrane moved in amendment thereto, seconded by Mr. Hazen,

That all the words after the word "That," in the proposed resolution, be struck out and the following substituted therefor: "the Minister of Railways and Canals having informed the House that the Chairman of the Board of Railway Commissioners for Canada has had under consideration the necessity of a further reduction in Express rates and charges and that the said Chairman is now making an informal enquiry for that purpose, the House is of opinion that it is desirable to await the conclusion of such enquiry before passing any resolution on the subject."

---

And the question being put on the amendment; It was resolved in the affirmative.

And the question being put on the main motion, as amended, it was resolved in the Affirmative.

On motion of Mr. Middlebro, seconded by Mr. Meighen,

Ordered, That Mr. R. C. Miller, now in the custody of the Acting Sergeant-at-Arms, be brought before the Bar of this House to answer questions which on the fourteenth of February, instant, he did refuse to answer on his examination before the Select Standing Committee on Public Accounts and which he did also refuse to answer before the Bar of this House on Tuesday the eighteenth instant.

The Acting Sergeant-at-Arms reported, That in obedience to the Order of the House, Mr. R. C. Miller is in attendance.

Mr. Middlebro moved, seconded by Mr. Meighen, That the following question be put to Mr. R. C. Miller, who is at the Bar of this House:—

To whom did you pay the sum of forty-one thousand and twenty-six dollars for the purpose of securing contracts from the Government of the Dominion of Canada, amounting to one hundred and seventeen thousand dollars or thereabouts between the month of June, 1907, until you ceased to be President of the Diamond Light and Heating Company in June, 1911, as alleged by you on your examination before the Select Standing Committee on Public Accounts on Friday the fourteenth of February, 1913? which was agreed to.

Mr. Miller.—Before making my statement, I would ask the privilege of having my Counsel, Mr. A. E. Harvey, K.C., of Montreal with me, and after I have finished, that he be allowed to make a few remarks on my behalf, if it is so desired.

Mr. Middlebro moved, seconded by Mr. Meighen, That the witness be allowed consultation with his solicitor; which was agreed to.

Mr. Miller read a statement to the House as follows:—Mr. Speaker, with your kind permission, I wish to entirely withdraw the statement that my Counsel made at the time of my first appearance at this Bar, as apparently he did not quite understand the case, owing to the short time at his disposal for considering it.

Part of that statement was that one of my reasons for declining to answer the question was that it would incriminate me. Now, Mr. Speaker, I wish to especially withdraw that statement, as I did not authorize my Counsel to make it, as I was in absolutely no fear that anything I have done would incriminate me in any manner or form. The main reason that I wished to have had given was that owing to litigation now pending, which arose out of this matter, I deemed it inadvisable to make the facts known, as it might influence the results of those cases. I wish to explain that my action in declining to answer was not because I wished to defy this Hon. House. Far be it from that, as there is not a man in Canada who has more respect for the recognized governing bodies of our country, and especially this Hon. House which represents the people. But, when I know that I have done nothing that in any way affects the public of Canada, notwithstanding any opinions to the contrary, and when I also know that a few self-constituted enemies clandestinely so worked that they became the Directors of the Company of which I was the President for so many years, and of which I at the present time own about one-third of the outstanding stock, and for the purpose, not of getting an accounting from me, but in my humble opinion, for the ulterior purpose, by taking advantage of technicalities, of extorting money from me to divide among themselves.

Mr. Speaker interrupted by putting the question as directed by the resolution to the witness.

Mr. Borden moved, seconded by Mr. Maclean (Halifax), That witness be allowed to give his reasons for refusing to answer the question put, and that he keep within reasonable bounds with regard to the importation of irrelevant matter into his explanation; which was agreed to.

Mr. Miller then continued his statement as follows: There was only one course for me to pursue, and that was for me to make an honourable fight against any intrigue. I have followed that course so far without fear or favour, and this is the first time that I have made any public reference to this case. I would not, I can assure you, make any reference at the present time if this unenviable publicity had not been thrust upon me. It is not with a desire to defy this Honourable House or any other governing body that I have acted in the way I have. I would like to have been able to have given the reasons for my action, and in my own way: because on the surface it may look as if I were protecting myself against possibly being incriminated, and it might also be suspected that I am taking this line of action in order to protect some person or persons connected with the Administration of the Government of the Dominion of Canada. Now, as to that, I have already stated under oath that I never paid any money to any Member of the Senate, or to any Member of the House of Commons, or to any official of the Government; and I now state that I never gave any remuneration of any kind whatsoever to any Member of the Senate, or of the House of Commons, or to any person in the employ of either the Senate or the House of Commons, either directly or indirectly. It might also appear at first sight that my action is based on stubbornness on my part, or a wish to defy the different powers. But I can assure you that such is not the case.

Now, Mr. Speaker, I have tried here, as far as lies in my humble power, to make my reasons plain for declining to give to this House the desired information, and, as I claim to be an honourable man, I cannot conscientiously follow any other course than that which I have been doing. I feel satisfied that every Hon. Member of this House, if placed in the same position and in the same circumstances that I have been and am now placed in, would follow the same course. I therefore place myself in the hands of this Honourable House, feeling that I will get fair play, and I beg of the House that it be magnanimous enough to accept my explanation, withdraw the question, and discharge me from its custody.

Mr. Harvey (Counsel) then said: Mr. Speaker, shall I be allowed now to supplement the remarks made by my Client?

Mr. Middlebro moved, seconded by Mr. Meighen,

That Counsel be permitted to supplement the statement made by the Witness; which was agreed.

Mr. HARVEY.—Mr. Speaker and hon. gentlemen, I appreciate the indulgence you have given to my client, Mr. Miller, and I ask the privilege of speaking very briefly. I wish, in the first place, to call the attention of the House to the fact that the question as it is put has a tendency to put into Mr. Miller's mouth words that he never uttered at all. What Mr. Miller did state before the committee, and what he stated in court was that during the four or five years that these transactions with the Diamond Light and Heating Co. were going on, he had paid the sum of \$41,026 in connection with getting business for the Company. If you look at this question as it is put, it would appear to give out that Mr. Miller had stated something different from that. It covered all the business that he was able to get for the Company during these four, five or six years. It would be unfair to allow that question to be put and to be answered in that form, because it is not correct and does not represent what Mr. Miller said.

I desire to refer to the cases which are going on as a result of the difficulty between the Diamond Light and Heating Company and Mr. Miller, its former president and manager. Mr. Miller was deposed very suddenly from his position, and

is at the disadvantage of having no direct communication with the papers, books and all the paraphernalia in the office, and has found this to be a cause of difficulty to him. As his counsel I know what these difficulties have been. There are three cases pending. Two of these cases have not yet reached the enquete stage, as we call it in Montreal, that is, they have not reached the evidence stage, and the evidence has yet to be given. That is the position, and I think it quite probable that other cases will result from these same transactions. I am well aware of the fact that evidence given by Mr. Miller before the Public Accounts Committee, or before this House, cannot be used as evidence before the courts, but you will not deny that impressions, no matter how received, and working in the mind in a way that we cannot account for, before judgments are given, may, and very probably will be prejudicial to Mr. Miller, or perhaps to the other side of the case, if these matters are gone into as fully as the House is asking Mr. Miller to go into them at this moment and before the judgments are given. We are all human; judges are human; you, gentlemen of the House of Commons are human; Mr. Miller and myself are human; and we are liable to err and to form impressions which are going to influence our judgment. Although we have the greatest respect for the judges in Montreal, and know their integrity in every way, we say that the very fact of things coming out before these cases are settled will probably have an influence, unconsciously and unwittingly, upon the judgments to be rendered. Would it be fair under these circumstances for this House, just at this time, to order this question, or any other similar question, to be answered, and make Mr. Miller do what he would not do in any court of justice; that is, appear as a witness against himself and answer questions against himself which are going to have an effect on these cases? It seems to me that this House will not go so far, but that it will show some indulgence to my client, at least until these cases are decided. It will not be very long before they are decided, and if this House still thinks that it is in the interest of the country and of Parliament that Mr. Miller appear before it again, it always has the privilege of summoning him to the bar. In the meantime, it would be conscious of having done simple justice to Mr. Miller in allowing this matter to rest until he can fight those fights that are going on in Montreal, in the cases that I have mentioned and other cases which are liable to come out of the same transactions.

I might refer to one incident before asking anything upon this point, and it is this. We were before the Public Accounts Committee on Friday last. We went away understanding that there would be no meeting on Tuesday. Having heard nothing as to whether we would be actually required or not, at five o'clock on Monday afternoon I took the trouble, by long distance telephone from my office in Montreal, to telephone to the Chairman of the Public Accounts Committee, and ask him if Mr. Miller would be required here or in the Public Accounts Committee the following day, and, when assured that we would be required, both Mr. Miller and myself, through the telephone, told the Chairman that we would be here, and we prepared to come. That shows the good faith of Mr. Miller. Mr. Miller wants to do what this House wants him to do, providing we are not put in a prejudiced position with regard to the litigation with which we are now struggling in the city of Montreal. I would ask under these circumstances that this question against Mr. Miller be not pressed at the present time, that he be allowed to be discharged by the House until at least this litigation can be settled and until the judgments are delivered; and then, if the House still wants to bring him up again, I am sure that Mr. Miller would be willing to come at any time. I ask as a privilege that the House be generous on this occasion and grant this request. I thank you, Mr. Speaker and hon. gentlemen.

Mr. MIDDLEBRO.—Before the motion is put I have only a few words to say with respect to this matter. Perhaps I had better move first: That the witness retire while the House is considering the matter.

Mr. MACLEAN (Halifax).—I would like to enquire now if the statements made by the witness and by his counsel are open for discussion. I would like to know if every Hon. Member except the Hon. Member for North Grey is precluded from discussing this matter.

Mr. Middlebro moved, seconded by Mr. Meighen,

That the witness retire until the House has considered the matter put before it.

Mr. Pugsley moved in amendment, thereto, seconded by Mr. Emmerson,

That all the words after the word "That" be struck out and the following be substituted therefor:—

"Mr. Miller and his Counsel be allowed to remain at the Bar of this House until the Honourable Member for North Grey has had an opportunity of informing the House as to whether the statement made by Mr. Harvey, that, Mr. Miller had not given before the Committee on Public Accounts the evidence which the question put to the witness by Mr. Speaker alleges he gave, is correct."

And objection being taken, that the amendment is not an amendment, but a direct negative, and out of order. Mr. Speaker stated: I think, considering this amendment, and having regard to the strict procedure, May has laid it down that a direct negative to a question is not an amendment to a question, though it may be covered up by verbiage. Guided by that, I rule this amendment out of order.

Mr. Pugsley then appealed from the ruling of the Chair.

Mr. Speaker said: Shall the ruling of the Chair be sustained by the House?

And the question being put, the ruling of the Speaker was sustained.

The question on the main motion being put; it was agreed to.

The witness then withdrew, in custody of the Acting Sergeant-at-Arms.

Mr. Middlebro moved, seconded by Mr. Meighen,

That it be resolved, That this House, having considered the statements made by Mr. R. C. Miller and his Counsel, at the Bar of this House, on the 18th and 20th days of February, instant, hereby declares such statements to be no answer to the question put to him by Mr. Speaker on said dates, and that his refusal to answer said question constitutes a breach of the privileges of Parliament, and renders the said Mr. R. C. Miller guilty of contempt of this House, and this House doth order and adjudge that the said Mr. R. C. Miller be forthwith, by the Sergeant-at-Arms, committed to and imprisoned in the Common Jail of the County of Carleton, situated in the City of Ottawa, in the Province of Ontario, until the prorogation of this House, or until sooner released therefrom by the Order of this House; and the keeper or other officer in charge of the said Jail is hereby authorized to receive the said Mr. R. C. Miller into his custody accordingly, and that Mr. Speaker do forthwith issue his warrant therefor accordingly.

And objection being taken that the proposed motion cannot be considered by the House unless two days' notice be given.

Mr. Speaker ruled, That the point of order was not well taken.

And the question being put on the main motion; it was agreed to on a division.

On motion of Mr. Borden, seconded by Mr. Doherty,

Ordered, That the Witness Mr. R. C. Miller, be brought to the Bar of the House in order that the Judgment of the House which has been just passed may be communicated to him.

The Acting Sergeant-at-Arms: Mr. Speaker, the witness, Mr. R. C. Miller, is now in attendance at the doors of this Honourable House.

Mr. Speaker.—Admit the witness.

Mr. Miller again came before the Bar of the House.

---

Mr. Speaker.—Mr. R. C. Miller, I have the honour, in obedience to the command of this House, to communicate to you the judgment of this House with reference to your case which has been under consideration, in the following terms:—

That this House, having considered the statements made by Mr. R. C. Miller and his Counsel, at the Bar of this House, on the 18th and 20th days of February, instant, hereby declares such statements to be no answer to the question put to him by Mr. Speaker on said dates, and that his refusal to answer said question constitutes a breach of the privileges of Parliament, and renders the said Mr. R. C. Miller guilty of contempt of this House, and this House doth order and adjudge that the said Mr. R. C. Miller be forthwith, by the Sergeant-at-Arms, committed to and imprisoned in the common Jail of the County of Carleton, situated in the City of Ottawa, in the Province of Ontario, until the prorogation of this House, or until sooner released therefrom by the Order of this House; and the keeper or other officer in charge of the said Jail is hereby authorized to receive the said Mr. R. C. Miller into his custody accordingly, and that Mr. Speaker do forthwith issue his warrant therefor accordingly.

The witness then withdrew in the custody of the Acting Sergeant-at-Arms.

On motion of Mr. Lancaster, seconded by Mr. White (Renfrew),

That the Member representing the electoral division of St. Hyacinthe, having, from his seat in this House, declared that he is creditably informed and believes that he is able to establish by satisfactory evidence:

That at a recent by-election which took place in the electoral division of Hochelaga on the 19th of November, 1912, the Honourable Louis Coderre was a candidate and was eventually returned as duly elected to this House.

That at the said election, to the knowledge, with the connivance, and for the benefit of the said Louis Coderre, a system of personation was regularly organized, in which one Emile Bourassa, of the City of Montreal, one Elis Horner, of the same place, one Elie Lalumière, also of the same place, were active participants under the expectation and promise from the said Louis Coderre and his agents, that they, the said Emile Bourassa, Elis Horner, and Elie Lalumière, would be rewarded both with money and public positions.

That after the said election, at different times and places, up to the 14th of February last, the said Emile Bourassa, Elis Horner, and Elie Lalumière, pressed the said Louis Coderre for the fulfillment of the above promises and threatened that unless they were so satisfied they would expose and divulge the said system of personation and participation and connivance of the said Louis Coderre in the same.

That with the object of preventing publicity being given to the said system of personation, the said Louis Coderre did on the 14th of February last write the following letter which was duly delivered to the said Emile Bourassa:—

HOUSE OF COMMONS, OTTAWA,

(Translation)

14, 2, '13.

MY DEAR EMILE,—I learn from your friends that you have been informed that another person has been appointed to fill the position in the Department of Public Works. It is unfortunately true.

I wish to impress upon you once more that I have done, since a year, all that I could for you. It seems now that I shall have more opportunity to find a congenial appointment for you, either in my own Department or elsewhere.

Sincerely yours,

Signed. LOUIS CODERRE.

That on the 14th of February last the said Louis Coderre with the like object, wrote the following letter; which was duly delivered to the said Elie Lalumière.

HOUSE OF COMMONS, OTTAWA,

(Translation)

14, 2, '13.

Mr. ELIE LALUMIÈRE,  
Montreal, Quebec.

Respecting the position about which you spoke to me, I expect to be able to comply with your wishes in the near future.

I attach especial importance to the excellent recommendation of you from my cousin, Emile Bourassa.

Signed. LOUIS CODERRE.

That on the 17th of February last, Joseph Major, of the City of Montreal, one of the organizers of the said Louis Coderre in the said election, with the like object of preventing publicity being given to the said system of personation, or as a reward for the services of the said Emile Bourassa, in connection with the said system of personation, or both, paid to the said Emile Bourassa the sum of one hundred dollars.

That on the 17th February last the said Joseph Major of the City of Montreal, with the like object of preventing publicity being given to the said system of personation, or as a reward to the said Elie Lalumière, for his services in connection with the said system of personation, or both, paid to the said Elie Lalumière, the sum of one hundred dollars.

That since the said 14th of February last the said Emile Bourassa has been appointed to a position in the service of the Government of Canada.

Therefore, be it resolved, That the said allegations be referred to the Committee on Privileges and Elections with a view to enquiring fully into the said allegations, but especially and without limiting the scope of such enquiry, to investigate all circumstances connected with the organization of a system of personation in the said election, on behalf, with the co-operation and connivance of the said Louis Coderre and of his agents, and of the writing of the above letters to the said agents Emile Bourassa and Elie Lalumière and the payment to them of the above sums of money; and, also, the appointment of the said Emile Bourassa to a position in the service of the Government.

And also resolved, That the said Committee have power to summon and examine witnesses under oath and to send for papers and documents which said Committee may deem relevant to such enquiry.

And a Debate arising thereupon;

And The House, having continued to sit till after Twelve of the Clock on Tuesday morning.

*Tuesday, 18th March, 1913.*

And the question being put on the said motion; the House divided; and the names being called for, they were taken down, as follow:—

Ordered, That the Report be received at the sitting of the House.

Mr. Blondin also acquainted the House that he was directed to move, That the Committee may have leave to sit again.

Resolved, That this House will, at its next sitting, again resolve itself into the said Committee.

Mr. Speaker acquainted the House, That a Message had been received from the Senate by their Clerk, as followeth:—

The Senate doth insist upon their amendments to the Bill No. 97, An Act respecting the Canadian Northern Branch Lines Company, to which the House of Commons hath disagreed, for the following reasons, namely:—

1. As respects the reason (a) given by the House of Commons for its disagreement, because the amendment can raise no doubt as to the respective routes of the lines of railway referred to therein, inasmuch as the amendment purports only to describe shortly the lines themselves, and the routes to be followed by the lines are fully described in the enactment authorizing their construction, to which enactment the amendment makes express reference.

2. Further, as respects the said reason (a), because the method of short description used in the amendment is convenient and conduces to intelligibility, and has been used for some years in Bills and Statutes relating to the Canadian Northern Railway System, particularly during the present session by the House of Commons itself in the Bills originating in that House and concurred in by the Senate, No. 96, "An Act respecting the Canadian Northern Railway Company," No. 99, "An Act relating to the Canadian Northern Quebec Railway Company," and No. 105, "An Act respecting the Canadian Northern Ontario Railway Company."

3. As respects the reason (b) given by the House of Commons for its disagreement, because, if section 20 of chapter 56 of the Statutes of 1911, the enactment containing the existing limitation of time for completion of the line of railway authorized by paragraph (a) of section 5 of that chapter, be repealed, as is proposed by clause 2 of the Bill, section 150 of *The Railway Act*, which, as regards that line, was and is affected by the said section 20 only in so far as the provisions of the said section 150 and the said section 20 are inconsistent with each other, will provide the same limitation.

4. Further as respects the said reason (b), that if, notwithstanding the reason given in paragraph 3 hereinabove, any doubt as to the existence of a limitation of

time for completion of the said line should still exist, such doubt can be removed effectually by a short consequential amendment to clause 2 of the Bill."

Mr. Lancaster, from the Select Standing Committee on Railways, Canals and Telegraph Lines, presented to the House the Fifteenth Report of the said Committee, which is as follows:—

Your Committee have had under consideration the following Bills from the Senate and have agreed to report the same with Amendments, viz.:—

Bill intituled: "An Act to incorporate The Canadian North Western Railway Company;" and

Bill intituled: An Act to vest in The Van Buren Bridge Company the charter rights of the Restigouche and Western Railway Company, to construct and maintain a railway bridge across the Saint John River."

Mr. Speaker informed the House, That he had received from James J. Donnelly, Esq., the following notification of his resignation as Member for the Electoral District of South Bruce, in the Province of Ontario, and that he had issued his Warrant to the Clerk of the Crown in Chancery to make out a new Writ of election for the said Electoral District:—

To the Honourable

The Speaker of the House of Commons,  
Ottawa, Ontario.

SIR,—I, the undersigned, James J. Donnelly, of Pinkerton, in the Province of Ontario, having been elected and returned as a Member of the House of Commons of Canada for the electoral District of South Bruce, in the Province of Ontario, do hereby declare to you my intention to resign and I do hereby resign my seat as a Member of the said House of Commons, for the electoral District of South Bruce aforesaid.

JAMES J. DONNELLY

Signed, sealed and delivered  
in the presence of

J. D. REID,  
A. E. BLOUNT.

And then The House, having continued to sit till twelve minutes after Twelve of the Clock on Wednesday morning, adjourned till Eleven o'Clock, A.M., this day.

Wednesday, 28th May, 1913.

Your Committee have also considered Bill from the Senate intituled: "An Act to incorporate The Canadian Central and Labrador Railway Company," and have agreed to report the same with Amendments.

Your Committee have, in obedience to the Order of the House of 27th May, 1913, considered the amendments made by the Senate to Bill respecting the Canadian Northern Quebec Railway Company, and recommend that the first amendment be agreed to, but that the second amendment proposing to insert the word "under" after the word "along" on line 7 of section 7 of the said Bill be not agreed to for the reason that the proposed amendment varies the well considered standard section that has been embodied in many railway Bills this session by both Houses, and would in effect transfer to Municipalities the powers of the Board of Railway Commissioners to regulate the construction, operation and crossing under highways and public places with lines of wires when Municipalities refuse to permit them to be placed upon, along or across highways, in which event the powers to permit and regulate the crossing underneath highways should, in the opinion of your Committee, remain in the Board of the Railway Commissioners.

Your Committee have also considered the amendments of the Senate to Bill

respecting the City of Ottawa, and recommend that the same be agreed to without amendment.

In as much as Bill respecting the City of Ottawa, and Bill from the Senate, intituled: "An Act to enable the City of Winnipeg to get water outside of the Province of Manitoba," are being obtained in the Public interest and for the purpose of protecting the Public health, and not for private or corporate gain, Your Committee recommend that the fees and charges paid on these Bills (less the cost of printing and translation in the case of the first mentioned Bill) be refunded.

Your Committee also recommend, as is usual in the case of such Bills, that the fee and charges, less the cost of printing and translation, be refunded on Bill to incorporate the Canadian Medical Protective Association.

Friday, 30th May, 1913.

ELEVEN O'CLOCK, A.M

PRAYERS.

Mr. Bradbury, from the Select Special Committee appointed to consider Bills No. 2 and No. 116 (Letter A of the Senate), An Act respecting the Pollution of Navigable Waters, presented to the House, the Third Report of the said Committees, which is as follows:—

Your Committee met and organized on Friday, 2nd May last, and altogether have held six sittings, and have heard the testimony of the following persons, viz.:— Mr. James White and Dr. Hodgetts of the Commission of Conservation; Mr. Joseph Race, F.I.C., Municipal Bacteriologist of the City of Ottawa; Dr. W. T. Connel, Professor of Bacteriology and Hygiene at Queen's University, Kingston; Mr. R. S. Lea, C.E., and Mr. John Kennedy, C.E., both of Montreal; Professor C. H. McLeod, Vice-dean of the Faculty of Applied Sciences at McGill University, and Dr. Bryce, Medical Inspector, Immigration Branch of the Department of the Interior, Ottawa.

Owing to the very late period of the session at which your Committee were appointed, they have been unable to make much progress with the enquiry entrusted to them, but the evidence already adduced has greatly impressed them with the vast importance of the subject under investigation, and has convinced them that it is a matter of urgent necessity that this enquiry should be prosecuted to a conclusion at as early a date as possible.

Your Committee greatly regret their inability, through lack of time, to proceed further with this enquiry during the present session, but they beg to submit herewith the Minutes of their proceedings and of the evidence so far taken by them, and they earnestly recommend that your Committee be re-appointed at an early period next session with a view of enabling them to carry to completion the enquiry now begun, and of permitting such legislation to be passed as may be necessary to carry into effect any conclusions or recommendations which may be submitted by the Committee.

On the assumption that this enquiry will be resumed next session, your Committee have asked Dr. Hodgetts of the Commission of Conservation, who is about to proceed to England on official business, to make further enquiries as to the latest method of sewage disposal in that country and the working of the Local Government Board in reference thereto, and to obtain any further information as to water conditions in the United Kingdom as may be useful for the purposes of the enquiry; your Committee are also in communication with the proper authorities with a view of having the necessary instructions issued to the Topographical Surveyors now working in the western Provinces, to gather all possible information and data regarding the rivers and streams in the said Provinces for the purposes of your Committee; from these and other sources it is expected that much valuable and useful information will be available for consideration should the enquiry be resumed next session as recommended.

Your Committee would specially invite the attention of the House to the following points adduced in the evidence submitted, as in their opinion specially emphasizing the immense importance of an enquiry of this kind, and the paramount necessity, in the interests of Public Health, of determining as soon as possible the best practical means of effectually preventing the pollution of our navigable waters:—

MR. JAMES WHITE.

Q. Have you any data or information as to how wide an expanse of water would be necessary to prevent pollution on this side (of the Great Lakes), or can you rely at all upon the distance?—A. The Great Lakes undoubtedly act as great sedimentation basins. The Public Health Authorities of Ontario have gone half way across Lake Ontario from Toronto collecting samples of water all the way from the middle. They found bacteria right out to the middle of the lake. Of course, we can concede that the chances of the sewage of a city like Rochester infecting the supply of a town like Port Hope or Cobourg are somewhat remote; but you cannot say that it will not. The most important point of all is that the population on the shores of the Great Lakes and the St. Lawrence is increasing, and, as the population increases, the danger of infection also increases.

Q. What is the distance between Rochester and Cobourg?—A. The distance across the lake is approximately 40 miles, I should say.

Q. Is that sufficient to purify the water?—A. We have traced the pollution half way across the lake. Of course we assume that the pollution they get in the middle of the lake is Toronto's pollution, because, of course, Toronto is the largest city on the shores of Lake Ontario, and the pollution was found practically opposite that city. They were trying to discover whether by extending their intake pipe out a reasonable distance they would get beyond the polluted area; and they came to the conclusion that they could not.

Q. Is the water from the Great Lakes used for domestic purposes by the city?—A. Yes, that is what the city of Toronto depends upon. They have installed a very large filtration plant, but other cities along the lakes are using the unfiltered water.

Q. Even though we may not be able to induce the Americans to take the same action as we do you say that we will be entirely justified in acting without regard to what they do in International waters?—A. I do, most decidedly, because we cannot throw stones at them so long as we are sinning ourselves.

Q. It would have a good effect on them if we took action?—A. Yes. Of course as they have a larger population, they are the greatest offenders.

Q. We are reducing our own risk, even if they do not do anything?—A. Yes. On the shores of the Great Lakes we are the greatest sufferers, because every municipality is discharging untreated sewage into the lake and is also drawing its water supply from that lake; it is polluting its own water supply, if not to-day, then to-morrow, because the currents change with the winds and seasons.

JOSEPH RACE, F.I.C.

The effects of the pollution of navigable waters have chiefly been reflected in the abnormal death rates from enteric diseases, and it is these rates that have attracted public attention to this serious problem. At the outset it should be remembered that it is the use of such water for drinking purposes without purification that is the cause of so many deaths, and that the sewage problem has become acute on account of the failure of communities to realize their responsibilities in that direction.

We come now to the other aspect of this problem. If the sewage pollution of navigable waters is allowed to continue and the population continues to increase, a stage must ultimately be reached when they become impossible as a source of domestic water supply and finally a nuisance.

Q. What is your opinion regarding the whole question of the prevention of the pollution of streams?—A. I think that all sewage pollution and trade wastes ought to be prevented from running into the rivers unless thoroughly purified.

Q. Do you agree with other scientists that typhoid is a water-borne disease almost entirely?—A. Not almost entirely, but a large proportion of it is.

Q. You believe that it is a disease that is preventable?—A. Yes, certainly.

Q. What percentage is preventable by legislation?—A. I should say at least 75 per cent.

Q. Then according to your statement your opinion is that if we had proper sewage protection in the city of Ottawa we would have had at least 75 per cent fewer typhoid cases and deaths during these epidemics?—A. Undoubtedly.

DR. W. T. CONNEL.

Q. If there were typhoid fever at Kingston, would that not increase the danger of infection at the towns below?—A. I think that we can say that either typhoid fever cases or typhoid carriers are constantly present in every town and city, hence that a certain number of typhoid bacilli are being daily discharged with untreated sewage into the rivers and lakes by practically every town and city in this country.

Q. If there were anything of an epidemic, of course that danger would be increased?—A. Provided the excreta were not disinfected, as they are supposed to be by law.

Q. Speaking generally would there be any suggestion you could make which would be applicable?—A. Every city should treat its own sewage in such a manner as to render it harmless to any other cities or towns which may take their supply from below.

Q. And harmless to itself also?—A. Of course, to itself, the selfish reason would apply first. As I have said, I think our own experience has been that the danger is very largely to one's own town first, and secondly to those below, and so for purely selfish reasons we should treat our sewage and thus not injure ourselves, and secondly, to injure others.

Q. As the population of the country increases, will the danger increase or lessen?—A. It will increase with the growth of population unless proper safeguards are adopted.

Q. You think the time will come when it will be absolutely necessary for us to take some action?—A. Undoubtedly. We will be forced to do it some time if we do not do it now.

DR. HODGETTS.

The results of the pollution of our lakes and rivers have been clearly indicated in the report of the Commission of Conservation, and it is a fact that in many instances typhoid fever in most of our cities and towns is due to this careless and criminal method of polluting our lakes and rivers by human excreta in an untreated state. I quite agree with Dr. Connel that it is not so much polluting the water supply of other municipalities, but it is polluting their own water supply.

That the time has passed for a continuance of this reprehensible practice is quite apparent from the legislative action of many of the Provinces. That action by the Federal Government is necessary in order to make the work effective and uniform is evidenced by the unanimous findings of the Conference, as reported by the Commission of Conservation.

MR. R. S. LEA, C.E.

Q. Can you give us any idea as to what the probable diminution in the death rate from typhoid would be if the Government took hold of this question and dealt with it systematically and successfully?—A. I think it would reduce the death rate by one third or one fourth. Not only would the average death rate be reduced but the danger of epidemics would be greatly diminished, and in many cases would be prevented altogether.

MR. JOHN KENNEDY, C.E.

Q. What class of officials are you referring to?—A. Medical officers in connection with Boards of Health. We have such a Board in our municipality, and my experience of such men is that they know practically nothing of the scientific part of

the question that we are dealing with, and that is why I suggest that properly trained men, in sanitation, should be secured. That is no reflection on the medical men at all. The whole sanitary science has grown extremely rapidly and the older men, both engineers and doctors, have hardly kept pace with it. They have been busy with other things. Our railway engineers do not need to trouble their minds at all about it. They have other questions that keep them exceedingly busy and the ordinary practitioner in the country understands that bad water hurts people, but what way to get rid of that bad water he is not prepared to say; but surely men ought to be trained in this science, which has grown so rapidly. Our pollution is increasing very fast, and we understand so much better now what is needed to make wholesome water and wholesome conditions of health generally. Some kind of scientific training is urgently needed.

Q. You think it would be in the interest of the country that some step should be taken to create properly trained sanitary engineers?—A. I do. I can conceive hardly any other way in which money could be better spent than to take steps for improving our whole sanitary condition, and of course, trained men would be the first step.

In conclusion your Committee, having in view the gravity of the present situation, and the importance of having some action taken at as early a date as possible to prevent the continuance of the practice now so prevalent of polluting the waters of the country by the discharge thereinto of untreated sewage and other offensive matter, recommend that the Government endeavour to arrange, during the coming recess of Parliament, for a Conference of Representatives of the Dominion, of each of the Provinces, of the International Waterways Commission, and the Chairman of this Committee, for the purpose of fully discussing the whole subject, with a view of endeavouring to overcome local difficulties, and of agreeing upon some form of remedial legislation which could be passed concurrently by the Dominion Parliament, and by the Legislatures of the various Provinces.

Mr. Speaker rendered a ruling on the subject of amendments as to grants:—

COMMITTEE OF SUPPLY ON WAYS AND MEANS AND ALL COMMITTEES OF THE WHOLE ON  
MONEY RESOLUTIONS OR GRANTS.

*May, page 615.*

“The Constitutional principle which vests in the Crown the sole responsibility over national expenditure, and which forbids the Commons to increase the sums demanded by the Crown for the service of the State is strictly enforced in Committee of Supply and Ways and Means.”

*Page 616.*

“Nor can the Committee attach a condition or an expression of opinion to a grant, nor alter its destination.”

*Bourinot, page 601-602, Canadian Practice.*

“It is not allowable at this stage, more than any other, to increase or alter the destination of a grant of money recommended by the Governor General; but it is always in order to propose an amendment stating the conditions under which the House makes a grant of money.”

Ruling of Honourable James Cockburn, Speaker, 1869. L. G. Desjardins: Speaker's decisions.

*Page 128.*

“It is not in order to propose an amendment altering the manner in which is to be applied the expenditure of money recommended by Message from the Representative of the Crown.”

“The practice on this point of the Canadian House differs from that of the British Parliament. I desire, therefore to express my view that the practice of the Canadian House permits of the proposed amendments being offered, as it merely provides conditions not inconsistent with the general purpose of the proposed grant.”

The House again resolved itself into a Committee of the Whole on Bill to authorize the granting of Subsidies in aid of the construction of certain lines of Railway of the Canadian Northern Ontario Railway Company and the Canadian Northern Alberta Railway Company, respectively, and, after some time spent therein, Mr. Speaker resumed the Chair; and Mr. Blondin reported, That the Committee had gone through the Bill, and made an Amendment thereunto.

Ordered, That the Bill, as amended in the Committee, be now taken into consideration.

The House accordingly proceeded to take the Bill into consideration.

Mr. Cochrane moved, seconded by Mr. Burrell, That the said Bill be now read a third time.

Mr. Oliver moved in amendment thereto, seconded by Mr. Carvell, That the said Bill be not now read a third time, but that it be referred back to the Committee of the Whole for the purpose of amending it as follows:—

“That the granting of such subsidies and the receipt thereof by the respective Companies shall be subject to the condition that the said Companies shall, within two months from the date of the passing of this Act, submit to the Board of Railway Commissioners for Canada, a schedule of traffic rates upon the lines of the said Companies now or hereafter to be constructed west of Fort William, which shall be the same as now apply on the lines of the said Companies in the Provinces of Ontario and Quebec, in so far and to such extent as the said railway companies may be able to establish higher cost of operation on such lines west of Fort William, and the said schedule shall be subject to the authority and control of the said Board of Railway Commissioners, to be revised and adjusted by them in accordance with the foregoing provision.”

So it passed in the Negative.

And the question being again proposed on the main motion.

Mr. Graham moved in amendment thereto, seconded by Mr. Pardee, That the said Bill be not now read the third time, but that it be recommitted to the Committee of the Whole House with instructions to amend the same by inserting the following as clause 6:—

“The granting of such subsidies and the receipt thereof by the said company shall be subject to the condition that the Board of Railway Commissioners for Canada may at all times provide and secure to other companies over the line of railway of the Canadian Northern Pacific Railway Company, situated in the Province of British Columbia, from a point at Yellowhead Pass to Vancouver at the mouth of the Fraser river, such running powers, traffic arrangements and other rights as will afford to all railways connecting with the said railway so subsidized reasonable and proper facilities in exercising such running power, fair and reasonable traffic arrangements with connecting companies and equal mileage rates between all such connecting railways and the said board shall have absolute control, at all times, over the rates and tolls to be levied and taken by the company hereby subsidized: Provided always that any decision of the said Board made under this section may at any time be varied, changed or rescinded by the Governor in Council, as he deems just and proper.”

And the question being put on the amendment; it was negatived on the same division as last recorded.

And the question being again proposed on the main motion.

Mr. German moved in amendment thereto, seconded by Mr. McKenzie, That the said Bill be not now read the third time, but that it be referred back to the Committee of the Whole House with instructions to amend the same by striking out sections 8 and 9, and adding in lieu thereof the following:—

“The grants made under this Act shall be repayable with interest half-yearly at the rate of four per cent per annum not later than the 1st of July, 1933, and to be secured by debentures charged upon the undertaking, equipment and property, rights and franchises of the Canadian Northern Railway Company, the Canadian Northern Pacific Railway Company, the Canadian Northern Alberta Railway Company, the Canadian Northern Ontario Railway Company and the Canadian Northern Quebec Railway Company, ranking next after the securities already issued and at present existing against each and all of said companies, and also be further secured by a transfer to the Minister of Finance and Receiver General of Canada in trust for His Majesty, shares in the common stock of the Canadian Northern Railway Company of the par value of fifteen million dollars which said stock shall be deemed to be fully paid up non-assessable and not subject to calls and to be transferred upon the books of the Canadian Northern Railway Company, and which said shares of stock shall be on the repayment by the said company of the said sum of fifteen million dollars, and all interest thereon retransferred to the said company, their successors or assigns.”

The Speaker ruled the proposed amendment out of order, inasmuch as the amendment proposed a loan in place of a subsidy, and this is such a change in the nature of the grant that it cannot be received without the recommendation of the Crown.

From this ruling Mr. German appealed to the House.

The question being put by Mr. Speaker shall the ruling of the Chair be con-

firmed; the House divided; and the names being called for, they were taken down, as follow:—

The Order of the Day for the consideration of the amendments made by the Senate to the Bill to encourage and assist the Improvement of Highways, being read:—

Mr. Cochrane moved, seconded by Mr. Kemp, That this House do not agree to the first amendment made by the Senate to Bill to Encourage and Assist the Improvement of Highways for the following reasons:—

1. Because substantially the same amendment has already been considered and rejected by this House.

2. Because the amendment is unnecessary and undesirable since, (a) the Supply Bill will make provision for the apportionment of the proposed subsidies to the respective Provinces for the ensuing fiscal year; and since (b) such apportionment can be more conveniently provided for in the annual Supply Bill.

3. Because the said Bill defines the ends, purposes, conditions, limitations and qualifications to be established in respect of aids and supplies to be granted by this House and the same are not alterable by the Senate.

And the question being put on the said motion; It was resolved in the Affirmative, on a division.

Mr. Cochrane moved, seconded by Mr. Kemp, That this House do not agree to the second amendment to the said Bill, for the following reasons:—

1. Because substantially the same amendment has already been considered and rejected by this House.

2. Because section six of the Bill contains a desirable provision for aiding the construction and improvement of highways.

3. Because it is expedient to make provision for the case of any Province which may desire to have the Minister undertake the construction of a new highway or the improvement of an existing highway.

4. Because the section provides a convenient method of co-operation between the Federal and Provincial Governments in the construction or improvement of highways.

5. Because it is desirable to provide every reasonable means of co-operation between the Federal Government and Provincial Governments for the construction and improvement of highways consistently with the preservation of the rights of the Provinces.

6. Because the rights of the Provinces are thoroughly safeguarded in the said section.

7. Because there can be no action by the Federal Government under this section except with the authority and approval of the Provincial Legislature and the Provincial Government.

8. Because the said Bill defines the ends, purposes, conditions, limitations and qualifications to be established in respect of aids and supplies to be granted by this House and the same are not alterable by the Senate.

And the question being put on the said motion; It was resolved in the Affirmative, on a division.

Ordered, That a Message be sent to the Senate to acquaint their Honours therewith.

Ordered, That the Clerk do carry the said Message to the Senate.

Mr. Speaker acquainted the House, That a Message had been brought from the Senate by their Clerk, as followeth:—

The Senate have passed the following Bills, without any amendment, viz.:—

Bill to amend the Railway Belt Water Act.

Bill relating to Parcel Post.

Bill to amend the Judges Act.

Bill to authorize the granting of subsidies in aid of the construction of the Railways and Bridge therein mentioned.

Bill to authorize the granting of subsidies to the Government of the Province of Ontario in aid of the construction of the Temiskaming and Northern Ontario Railway.

Bill to amend the Post Office Act; and

Bill to amend the Inspection and Sale Act.

The House, according to Order, proceeded to take into consideration the Amendments made by the Senate to the Bill to amend the Criminal Code, and the same were read, as follow:—

Page 2, line 27—After “magistrate” insert “or police magistrate or acting police magistrate.”

Page 2, line 43—For the words “naval, military, militia,” substitute “member of His Majesty's naval, military, or militia forces,”

Page 3, line 35—After clause 6 insert the following as clause 6A:—

“6A. The following section is inserted immediately after section 169:—

“169A. Every one who falsely represents himself to be a constable or other peace officer, or who, not being a constable or other peace officer, makes use of any badge or article of uniform or equipment in such a manner as is likely to make persons believe that he is a constable or other peace officer, is liable upon summary conviction to a fine not exceeding one hundred dollars and costs, or to imprisonment for a term not exceeding three months, or to both such fine and such imprisonment.”

Page 4, line 1—Leave out clause 8.

Page 9, line 18—Leave out “commissioner.”

Page 12, lines 44 and 45—For the words “to Form 51 the following” substitute “after Form 75 the following as Form 76”:—

Page 13—Leave out the Form of “Affidavit to be made by each surety.”

Page 13, line 12—Leave out the words “and by adding after Form 75 the following form”:—

The said Amendments, being read a second time, were agreed to.

Ordered, That the Clerk do carry back the Bill to the Senate, and acquaint their Honours, That this House hath agreed to their Amendments.

A Bill for granting to His Majesty, certain sums of money for the Public Service of the financial year ending the 31st March, 1914, was, according to Order, read the third time.

Resolved, That the Bill do pass.

Ordered, That the Clerk do carry the Bill to the Senate, and desire their concurrence.

Mr. Speaker acquainted the House, That a Message had been brought from the Senate by their Clerk, as followeth:—

The Senate has passed the Bill, intituled :“An Act to provide for more advantageous Telegraphic Communication between Canada, the United Kingdom and other parts of the British Empire, with Amendments, to which they desire the concurrence of this House.

The House proceeded to take into consideration the said Amendments and the same were read, as follow:—

Pages 1 and 2—Leave out clauses 2 to 7, both inclusive.

Page 3, line 7—Leave out subclause 3 of clause 8.

Page 3, line 9—Leave out subclause 1 of clause 9.

Page 3, line 12—Leave out the words “ Until such proclamation has been made.”

The said Amendments, being read a second time, were agreed to.

Ordered, That the Clerk do carry back the Bill to the Senate, and acquaint their Honours, That this House hath agreed to their Amendments.

A Message was received from the Senate informing this House that the Senate doth insist upon their amendments to the Bill to encourage and assist the improvement of Highways, for the following amongst other reasons:—

“1. Because the right of the Senate to amend a Bill is not impaired by the proceedings which may have taken place during the progress of the Bill through the Commons.

“2. Because the reason assigned for the rejection of similar amendments made in the House of Commons, that said House will yearly pass upon each item of expenditure does not apply to the Senate whose only recourse in case of disagreement would be to reject the Supply Bill.

“3. Because the amendment made by the Senate to the third clause of the Bill by the addition of subclause 2 affirms the principle of equitable distribution of intended supplementary subsidies to the Provinces, according to the agreement entered into by the Provinces at the time of Confederation.

“4. Because the method of distribution provided for by the said first amendment is based upon a principle fair and reasonable in itself and is that announced by Members of the Administration in the Senate and in the House of Commons during the last and the present sessions of Parliament as their settled policy, and that which has been actually embodied in the Bill respecting Aid to Agriculture for the current year.

“5. Because the said Bill is an enabling measure, and in order to make its provisions effective has to be supplemented by placing the moneys proposed to be voted for its objects in the yearly Supply Bill; and, moreover, the said Bill was declared by His Honour the Speaker of the House of Commons not to be a money Bill.

“That the Senate adheres to the Seventh amendment for the following among other reasons:

“1. Because section 6 of the Bill empowers the Minister to undertake the construction or improvement of Highways in any Province, which would be a contravention of the letter and spirit of *The British North America Act, 1867*, and of the uniform practice under that Act, for which contravention no sufficient cause has been shown.

“2. Because the said amendment affirms in effect that it is undesirable that the Minister or the Dominion Government should usurp the functions of the Provincial Administration in the building and maintenance of highways and bridges.

"3. Because the said amendment will not hamper the Administration in carrying out its policy and in applying the funds placed in the estimates for that object under conditions and regulations it may deem just and proper to make, sufficient provision being made in earlier clauses of the Bill for co-operation between the Federal and Provincial Governments.

"4. Because section 6 of the Bill is a violation of the principle of responsible Government, inasmuch as the Dominion in expending provincial subsidy would not be responsible to either the Provincial or Dominion Legislature."

Also, a Message informing this House that the Senate doth insist upon their amendments made to the Bill to amend the Government Railways Act, for the following reasons:—

"1. Because the said Bill as passed by the House of Commons is a violation of the principle of responsible Government inasmuch as it purports to give a permanent mandate to the Governor General in Council to commit the country to any amount of expenditure before any appropriation has been voted by Parliament.

"2. Because the said Bill is but an enabling Bill, and that moreover, without the said amendment made by the Senate this Chamber would deem it its duty to reject the said Bill in toto as passed by the House of Commons."

And also, a Message acquainting the House, That the Senate have passed the Bill, intituled: "An Act for granting to His Majesty certain sums of money for the Public Service, for the financial year ending the 31st March, 1914, without any amendment.

A Message was received from His Excellency the Administrator, desiring the immediate attendance of the House in the Senate Chamber.

May it please your Excellency:

“The Commons of Canada have voted the Supplies required to enable the Government to defray the expenses of the Public Service.

“In the name of the Commons, I present to Your Excellency the following Bills:—

“An Act for granting to His Majesty, certain sums of money for the Public Service of the financial year ending the 31st March, 1914.

“An Act for granting to His Majesty, certain sums of money for the Public Service of the financial year ending the 31st March, 1914.”

To these Bills the Royal Assent was signified in the following words:—

“In His Majesty’s name, His Excellency the Administrator thanks His Loyal Subjects, accepts their benevolence, and assents to these Bills.”

After which His Excellency the Administrator was pleased to close the Second Session of the Twelfth Parliament of the Dominion with the following Speech:—

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

In relieving you from further attendance in Parliament after a protracted session I thank you for the assiduity with which you have devoted yourselves to the important subjects that have been submitted for your consideration. It is satisfactory to note that your labours have resulted in many beneficial measures.

The Act granting aid for the advancement of Agricultural Instruction should ensure the co-operation of the Provinces with the Dominion in securing for the people a more thorough and comprehensive knowledge of improved methods by which

this great industry may be carried on with greater advantage not only to the producer but to the community at large.

In renewing the charters of the Banks for another period of ten years the Bank Act has received careful and thorough consideration; and important amendments have been adopted providing more efficient safeguards for the protection of both depositors and shareholders.

The adhesion of Canada to the Treaty of Commerce and Navigation between the United Kingdom and the Empire of Japan has been accomplished under conditions which should tend to promote friendly relations and increased commercial intercourse between the two countries.

Provision has been made for the establishment of a Parcel Post, the need for which has been long felt; and it cannot be doubted that the facilities thus afforded will be greatly appreciated throughout the Dominion.

The trade agreement between Canada and certain of the West Indian Colonies has now been brought into force, and it is confidently expected that trade and intercourse between these portions of the Empire will be thereby stimulated and promoted.

The amendments made to the Criminal Code should materially aid the necessary efforts to stamp out evils against which legislation has been recently directed in many countries.

In wise recognition of the importance of transportation, aid has been granted which should ensure the speedy completion of the transcontinental railways now under construction. The increasing volume of production and commerce is already taxing the capacity of existing transportation lines in all parts of Canada.

Amongst other important subjects which are receiving effective and well merited attention are the provision of further terminal elevators in the Western Provinces, the equipment of National Ports on both the Atlantic and the Pacific, and the construction of dry docks of sufficient size to accommodate the largest ocean-going steamships.

The arrangement which has been consummated for a more speedy and more frequent mail service from Canadian Ports to those of the United Kingdom has doubtless commended itself to your approval and will be hailed with satisfaction by the people.

You will be glad to know that the trade of Canada during the fiscal year just completed has largely surpassed that of any previous year. Immigration still flows to our shores in abundant measure, the revenues continue to expand and there is satisfactory evidence of development and progress in all parts of the Dominion.

*Gentlemen of the House of Commons:*

I thank you for the liberal provision which you have made for the increasing needs of the public service.

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

I trust that on your return to your homes you will find abundant evidence that the coming harvest will be bountiful, thus assuring for another year the prosperity which Canada happily enjoys.

THE SPEAKER of the Senate then said:—

*Honourable Gentlemen of the Senate:*

*Gentlemen of the House of Commons:*

It is HIS EXCELLENCY THE ADMINISTRATOR'S will and pleasure, that this Parliament be prorogued until Wednesday, the 16th day of July next, to be here holden, and this Parliament is accordingly prorogued until Wednesday, the 16th day of July next.
